Opposed:

Comments:

C. 1032 Marais Street

Application: Retention of construction of a residential building in deviation of approved plans.

Motion: Defer action on the proposal to retain the rear elevation in its as-built location until after this has been presented to the BZA, as required and approve the retention of the roof line on the camelback and the installation of the front window with the header height that deviates from the approved plans as it is similar to that of the adjacent building. Gutters and downspouts shall be installed.

By: Renee Lapeyrolerie

Seconded: Heather Szapary

Result: Passed

In favor: Calvin Alexander, Tony French, Jennifer Greene, Jesse LeBlanc, Greg Hackenberg, Heather Szapary, Paul Harang, Jeanne Nathan, Andrew P. Sanchez, Renee Lapeyrolerie, John Deveney

Opposed:

Comments:

D. 2706 St. Claude Avenue

Application: Retention of exterior conduits installed without C of A.

Motion: Defer action on this application until the January Commission meeting so that you can work with the Staff to determine an appropriate location for this conduit.

By: John Deveney

Seconded: Calvin Alexander

Result: Passed

Opposed:

Comments:

E. 2532 N. Rampart Street

Application: Retention of numerous violations including the installation of inappropriate windows.

Motion: At that time the Commission voted to:

Approve the Staff recommendations addressing the following items:

- All windows and window trim must be reconfigured to meet HDLC standards. The applicant is to modify one window and its corresponding trim for Staff to inspect prior to proceeding with the rest.
- The roof mounted AC equipment will be relocated to the rear yard.
- The door on the right side of the rear elevation will be installed as per the approved plans. The other openings on this elevation are approved as built.
- The wind turbines will be replaced with low-profile power vents.
- The vertical board fence will have a wood cap installed.
- The metal rail at the front porch must be revised. It should be located on centerlines of columns.
- The bead board material of the soffits shall be rotated so that it is perpendicular to the building.
- Soffit vents shall be rotated so that the louvers face towards the building to mitigate visibility.

The following items are approvable, as built:

- The size of the windows on the front elevation, although they must be reconfigured as described above. The windows had previously been modified to be the current size.
- The brick steps at the front elevation.
- The gable vent at the front elevation.

The Commission denied retention of the current construction of the camelback gable. It shall be reconfigured to match the original configuration as shown in photographs of the building prior to renovation. The brick chainwall at the front elevation shall also be reconfigured so that it does not extend beyond the line of the front porch.
